

SAKSHI SRIVASTAVA

Gurugram, Haryana, India | +(91) 9153915949 | sakshisrivastava55271@gmail.com | LinkedIn | GitHub

SUMMARY

Software Engineer with experience in Java, JavaScript, web application development, RESTful APIs, and SQL. Skilled in building responsive user interfaces, backend services, and scalable software solutions in Agile environments.

TECHNICAL SKILLS

- Programming Languages** : Java, Python, JavaScript, SQL
- Frontend Technologies** : HTML5, CSS3, JavaScript, React.js, Responsive Web Design
- Backend Technologies** : Node.js, RESTful APIs
- Databases** : Oracle Database, PostgreSQL, MongoDB
- Developer Tools & Platforms** : Git, GitHub, Git Bash, Jira, AWS
- Coursework** : OOP, DSA, Operating Systems, DBMS, SDLC

EXPERIENCE

Associate Software Engineer

*Amdocs*July 2025 - Present

- Developed and maintained Java-based backend services, implementing business logic and feature enhancements for enterprise applications.
- Contributed to the design and implementation of backend functionality across service and data access layers, ensuring reliable and efficient application behavior.
- Developed and enhanced RESTful APIs to enable seamless communication and data exchange between application components.
- Analyzed application workflows, identified code-level issues, and implemented maintainable solutions to improve functionality and stability.
- Collaborated with cross-functional teams to gather requirements, deliver backend enhancements, and ensure successful production deployments.

Web Developer Intern

*Kaspro Solutions*Jan 2025 – Jun 2025

- Contributed to application feature development using Java while working on a live enterprise project.
- Implemented frontend enhancements using HTML, CSS, and JavaScript to improve user experience.
- Wrote SQL queries for data retrieval and validation, supporting application requirements.
- Integrated JDBC adapters with MySQL databases to manage relational data, ensuring transactional integrity and secure schema execution.
- Participated in software design, code reviews, testing activities, debugging, and defect resolution within an Agile development framework.

PROJECTS

AI Incident Management System | Tech Stack: Python, SQL, REST APIs, OOPGitHub Link

- Developed Python-based business logic using OOP principles to automate incident categorization and workflow processing.
- Implemented API integrations, data validation, and SQL operations to improve incident management efficiency.
- Designed modular components and workflow logic to support scalable incident tracking and management processes.

Healthcare Management System | Tech Stack: Java, HTML, CSS, JavaScript, MySQLGitHub Link

- Developed a responsive healthcare management portal with appointment scheduling, patient management, and interactive user workflows.
- Integrated frontend components with backend services and database operations to ensure efficient data processing and a seamless user experience.
- Implemented responsive UI components to enhance accessibility and improve the overall user experience.

EDUCATION

Galgotias University
B.Tech in Computer Science & Engineering | CGPA: 8.55

Greater Noida, India
2021 – 2025

CERTIFICATIONS & ACHIEVEMENTS

- Java Development Certification – Udemy
- GenAI Certification – Amdocs
- Solved 500+ DSA problems across LeetCode and GeeksforGeeks
